DISH Player-DVR 942 is a two-tuner satellite receiver that combines the power of digital video recorder (DVR) technology with the ability to receive and record high definition television programming directly from DISH Network and off-air digital broadcasts. DISH Player-DVR 942 features a 250 GB hard drive and comes with digital video recording features that provide the ability to pause, record, replay and fast-forward standard or high definition television programs. Plus, with DISH Player-DVR 942's two tuners, you will also have the ability to watch different live programming on two televisions.

#### BETTER TECHNOLOGY

DISH DVR - DVR stands for Digital Video Recorder but it really means control!

You control the TV, not the other way around! With DVR, you never miss your favorite shows - watch them at your convenience, replaying or pausing whenever you want.
